

The 2008 Group Citation Award will be presented to a group of committed business professional, who on a volunteer basis explore present and future workforce issues. This group has willingly partnered with the Georgia Department of Labor to make a difference in their communities and their state.

This Executive Board during their annual trip to Washington, DC actively sought legislation during 2008, to expand the Family and Medical Leave Act, the Americans with Disabilities Act and Worker Adjustment and Retraining Notification. They also worked to provide funds to allow youth who needed assistance with training before entering the workforce. They were assertive encouragers to Georgia employers to use the services provided by the Georgia Department of Labor.

Please join me as I present the **2008 Group Citation Award** to the Georgia Employer Committee Executive Board.
