

Unemployment Insurance Award - Individual

The 2008 Individual Unemployment Insurance Award winner used his knowledge of the Unemployment Insurance Automated Benefit Payment System and the Unemployment Insurance program to save his state's agency from making thousands of erroneous unemployment insurance payments. He did stop making a difference at that point. He continued by helping to implement an electronic direct deposit system, which has provided additional cost reduction and has improved customer service. **The 2008 Individual Unemployment Insurance Award** is awarded to Leland Teal, South Carolina Employment Security Commission, Director of Policy, Procedure and Oversight, UI Division.
